CAMPBELL

This is the Month

We can expect warm weather and the comfort you can have in a hammock is worth investigation.

We Have

Hammocks for the baby, hammocks for the middle aged, hammocks for the young and for the old folks who need something different. In fact, the wants and purse of everyone can be suited in our remarkably complete line. The largest in the county.

In Exclusive Design and Finish:

Prices		
$1.25	$2.25	$4.00
$1.40	$2.40	$5.00
$2.00	$3.65	$6.00

In colored canvas, $1.50 each Canvas couches, $6.25

Baby safety swings, $1.50 each

THE FARMERS UNION

Phone Red 101 Campbell, Calif.

WE RECOMMEND THIS

$11,500.00

50 Acres Six room house, 2 large barns, well, windmill and tankhouse. Family orchard, 7 acres 1 year old Blenheim cots, 1 acre cherries, same age. Balance hay land. Very fine hay or orchard land. Last year raised 80 tons of hay. Is surrounded by thrifty and productive orchards. Will consider small acreage near Campbell in part payment. If in bearing orchard would be worth $20,000 or $25,000.

$100.00 PRIZE POSTER

For Advertising San Francisco Fall Fashion Show. September 14, 15, 16

The prize winning poster chosen as best, out of a competitive exhibit of over two hundred designs, for advertising the annual Fall Fashion Show at San Francisco was reproduced in last week's issue of the Press. The competition stirred all the artists of the State and aroused much enthusiasm during the exhibition. The annual Fall Fashion Show will be held by the leading merchants of the metropolis September 14th, 15th, 16th, and will be the greatest event of its kind ever held in this country. It represents a new phase of modern business which enables active competitors to unite in some things without in any way lessening the keen edge of competition. Thus the most important stores dealing in ready to wear apparel for women, men and children, have agreed to hold their annual Fall openings simultaneously for the three days of September 14th, 15th, 16th. Prizes will be offered for the best dressed show windows, etc., and every effort made to outdo each other at this time. The newest goods from the markets of the world will be on display. Suits, coats, dresses, gowns, millinery and garments of every description will be ready for inspection. The big shops who send their buyers to Paris have made special efforts to have the fall models ready at this time, as well as the finest goods produced in the ateliers of New York. The whole retail district of San Francisco will be en fete with window displays, merchandise displays and probably a brilliant electric illumination, of the principal thoroughfares. The Fall Fashion Show comes at an opportune time, enabling every one to inspect the new merchandise and to make purchase for Fall with least expense of time and money and most personal enjoyment. The Fashion Show has already taken its place among the festival events of the city and affords a wonderful opportunity to every one. Its importance has been recognized by all the railroads of the State, the Southern Pacific, Santa Fe, Western Pacific and Northwestern Pacific having united in making a special round trip rate of one and one-third fare for all points within a radius of two hundred miles. This means that residents of outside towns can go to San Francisco at a saving of one-third the usual fare and will find a great special display of Fall Fashions awaiting them. The railroad tickets are on sale going September 13th, 14th, 15th, and are good returning up to September 18th.

Sprayed Fruit for Canadian Government

Mrs. Coupland went to San Francisco Sunday and met her husband, W. R. Coupland, and they two returned home Tuesday. Mr. Coupland has been in the employ of the Canadian government at Vancouver where he had charge of men engaged in spraying fruit trees. They used the famous Bean Spray Pumps. Spraying is compulsory in Canada.

Thought His Name Was Jonah

E. F. Woodhull came home from Santa Cruz last Monday with a fine bag of fish, and remembered the editor as he passed this way. He had six nice salmon which weighed 34 pounds dressed. Mr. Woodhull says that on Saturday, August 19th, he had a narrow escape from being a "Jonah." He engaged a launch to take him out among the salmon. At a distance of some five miles he, with a boy, was left in a small boat. A whale came sporting around in that neighborhood and at one time when only a short distance away made a bee line for the little boat. Mr. Woodhull thought his name was Jonah for a little while, but the boy consoled him by saying that the whales often scratched their backs on the keel of the boat but was not liable to do them any harm. After a while the fisnerman got a big one on his line and for a short time thought he had hooked the whale but it proved to be only a little 25 pound salmon, which was safely landed in the boat. We neglected to ask Mr. Woodhull what kind of bait he uses.

WANTED—Good Housekeeping Magazine requires the services of a representative in Campbell to look after subscription renewals and to extend circulation by special methods which have proved unusually successful. Salary and commission. Previous experience desirable, but not essential. Whole time or spare time. Address, with references, J. F. Fairbanks, Good Housekeeping Magazine, 381 Fourth Ave., New York City.

Little Egg

Some months ago we had a run on big eggs, now the same hens have started in with small ones. The first little one—like the first large one—came from the hennery of John Spencer; it is a Black Minorca and is but one inch long.

Local and Personal

"I don't know what the truth may be, I tell the tale as 'twas told to me."

Save money by buying shoes at Campbell Shoe Store.

Born Sunday, August 27th, to Mr. and Mrs. A. Adam, an 8½ pound boy.

Ladies' hair work, working up combings. Mrs. A. W. Adams, Dillon Ave.

Daniel Kelley of San Francisco visited at the home of L. C. Watson this week.

D. M. Gandier will lecture at the Congregational church next Sunday evening.

Max Currier left for Oakland this week where he will begin a two-year course in the polytechnic school.

Let Golden West Cleaning and Dyeing Co. do your work for you. Putnam's are their agents in Campbell.

Miss Leah Reyburn, recently from Kansas, has purchased a lot on Rincon avenue and erected a cottage.

Mrs. Jennie P. Lewis returned last Saturday from Dodge, Neb., where she has been spending the summer.

Get ready for the October election. Register with A. J. Farley, Justice of the Peace, at his home on South First street.

Jas. D. Sawyer came home from the South last Friday night. He has been transferred to this district. He went to Oakland this week.

The woman suffragists will be in line in the big parade at San Jose next Monday. The members of the Campbell Political Equality Club have been invited to participate.

The Bryant Company's new office is about completed at their lumber yards on Lyndon Avenue, and the erection of additional stock sheds is going forward.—Los Gatos Mail.

Mrs. Irwin Watson of Long Beach is visiting with her uncle, Dr. C. N. Cooper, and other friends here. She will spend Sunday with Mr. and Mrs. C. W. Janes of San Jose.

The real business of life is the making of a happy home. When you come to sift the whole chaff of existence, everything goes to the wind but the happiness we have had at home.

Bert K. Kerr, the Optometrist, at 36 S. Second St., San Jose, will examine your eyes carefully; if glasses are needed, fit them correctly, if not, tell you so cheerfully. See him about your eyes.

Some people never hand in an item of news for publication, but if we happen to miss an item in which they are interested they are sure to hand us a north pole stare that would freeze the liver of a polar bear.

When the common earth worm is cut in two, he won't make a fuss about it; but to the tail end will grow a head and to the head end a tail. There will be two worms instead of one. Misfortune often doubles our strength.

The W. C. T. U. will meet in the Coffee on Wednesday, Sept. 6th, at 2:30. A full attendance is desired. There will also be a meeting of the School of Eugenics and everybody interested in that work will please attend.

Mrs. Nettie Davis of Oakland, daughter of F. F. Atkinson, of Sunnyside, and Miss Beryl Williams of Ferndale, Humboldt Co., his granddaughter visited over Sunday here. Miss Beryl fell in love with Sunnyside and decided to remain for a while.

A woman who fails in her home fails in all. Home is woman's realm, given into her hands to regulate, govern and beautify. If she fails here she may look in vain for another kingdom; for she has failed in the only spot where she could have ultimately succeeded.

The world is full of women who can amuse the ordinary man. Can sing, dance or recite for him; can paint, write or decorate in a manner most pleasing, but the poor man often goes begging for a woman who can sew on buttons or mend his clothes; who can cook his food with economy and flavor it to his taste.

Have you any news, tell the editor and he will serve it in a la mode. In case you do not happen to meet him, use the telephone or the mail. You will be helping to make your town paper of greater interest and thereby serve the general community. Whatever news may interest you, must surely interest many others.

Mrs. E. D. Harris and daughter Florence who have been at the O'Connor Sanitarium for several weeks sick with typhoid fever were brought home last Tuesday by Rev. and Mrs. J. F. Wilson in their auto. Ira has suffered a slight relapse and was unable to return at that time but hopes to be home tomorrow or the first of the week.

Stenography holds out unlimited possibilities for the young man of ambition. It opens the way to the inner heart of a business and makes possible the quickest and surest advance. Many of the great business men of today started as stenographers—kept their eyes open—and rapidly scaled the ladder of success. For more particulars write to Heald's Business College, San Jose, Cal.

State Poultry Show

The Pajaro Valley Poultry Association now comes to the front with the announcement of a State Poultry Show at Watsonville, Oct 9th to 14th, during the Mammoth State Apple Show, which was such a great success last year.

We have been informed that 30,000 people visited last year's Apple Show, and a State Poultry Show at Watsonville at the same time this year, should be very profitable to both exhibitors and the Association.

The Pajaro Valley poultry people are great boosters, as evidenced by a membership in their Association of over 190 since last March, at which time they organized. They have secured Judge Geo. D. Holden to officiate at their Show which is ample evidence of the character of their exhibition.

This will be a score card Show, as the management think there are a great many fanciers from every section of California, who would like to have their birds judged on points by one of the greatest Poultry Judges in the World, and a score card signed by Judge Holden will alone be a valuable acquisition to any fancier, even if they do not win a great many of the numerous trophies and specials, which we are informed the Association are offering. Their Premium List will be out early in September. Any of our readers desiring to exhibit at this State Poultry Show should send for their Premium List soon.

M. E. Church Notes

Services next Sunday morning as usual.

Sunday School at 9:45. The interest and attendance has kept up spendidly during the summer months. The roll call will be at 9:55 sharp.

The pastor will preach on the subject, "The Law of Self-Denial," at 11 o'clock.

The Epworth League will hold Annual Rally Day at 6:15 p. m. Subject, "The Supreme Motive Power." Mrs. J. F. Wilson, leader.

Union meeting at the Congregational church at 7:30.

Summer-time Now

Every week-end and holiday should be spent out-of-doors. An outing at once delightful, inexpensive and convenient is the trip by Peninsular Electric to Congress Springs, the natural pleasure park. This charming resort is private property, but visitors are freely welcome to enjoy its beauties and the healthful waters of the mineral spring. An ideal place for picnics; also "The Grill" now open. Round-trip tickets sold only at Peninsular offices. Time-tables and all information furnished on application at Southern Pacific Ticket Office, Campbell.

SUMMARY OF PAST WEEK'S COAST NEWS

Interesting Events Among Our Neighbors in the Far West Reviewed.

What Has Transpired on the Border of the Broad Pacific From Alaska to Mexico.

San Diego —In addition to paying a fine of $25 for playing the part of a "peeping Tom," Frank Bowman must stay at home for six months, according to a sentence imposed by Judge Puterbaugh.

Vallejo.—Two hundred enlisted men on the cruiser Maryland who were stricken with ptomaine poison, are recovering. It is thought that the poisoning was due to cheese served at dinner.

Hayward.—The residents of Hayward will be called upon to vote upon a bond issue for $80,000 for the securing of a site and the erection of a new high school in the Union High School district No. 3, Friday, September 8th.

Eureka.—The Northwestern Pacific railroad, which will ultimately connect Eureka with San Francisco, has been opened to traffic between Shively and Dyerville, adding seven miles to 35 already in operation south from Eureka.

Sacramento.—Governor Johnson honored the requisition of the Governor of Indiana for the return of James Hosick, a Los Angeles detective, for trial on a charge of kidnaping from Indiana of John J. McNamara, now held in the Los Angeles jail.

Berkeley.—F. H. Martin, a Stockton capitalist, was killed and five members of his party were injured when his automobile careened off the grade into a creek 20 feet below near the junction of the Happy Valley and Fish roads, in Contra Costa county.

Los Angeles.—Earl Curry, a Southern Pacific employe, died here from wounds received in a mysterious shooting affair in Eastlake Park. Joe Balis, who was arrested in the vicinity of the Park a few hours after the shooting occurred, is held in the city jail.

Sacramento.—James Harbin, a member of a concrete pile-driving crew working on the foundations of the new courthouse here, was instantly killed when a cable slipped off a heavy pile that was being lifted and struck him on the back of the head, crushing his skull.

San Diego.—Construction of the San Diego and Arizona railroad westward from Seely, in the Imperial valley, will be begun September 1st and pushed toward the San Diego end, which has carried the line about 40 miles eastward from this city and below the Mexican line.

Tehama.—One hundred and fifteen acres of hops on the Horst ranch, three miles south of here, will yield $150,000 worth of hops this season, or more than $1200 to the acre, estimating hops at 35 cents a pound. Picking has begun and some of the pickers are making $5 to $7 a day.

San Francisco.—As a San Francisco memorial to her husband because this city contributed so largely to the family fortune Mrs. E. H. Harriman has given $50,000 to the Southern Pacific hospital. The money will be used to endow a department of bacteriological and pathological research.

Gridley.—Tenants of the George Thresher orchard near here claim to have received an average of $500 an acre for fruit harvested this season. The orchard consists of but 18 acres, but the tenants have taken off fruit which sold for $9000. The pears are all Bartletts and are of the finest variety.

Sacramento.—While attempting to emulate the daring tricks of the cowboys at Agricultural Park, 14-year-old Harold Nance was kicked to death by his pet pony. He tried to pick up a horseshoe while riding at full speed, lost his balance as he leaned from the saddle and fell to the ground, one foot catching in the stirrup.

Auburn.—William Bosse was killed by a threshing machine by being drawn into the cylinder and mangled. Bosse's family history had been one of tragedy. His parents were burned to death 2 years ago, and his wife was killed in an automobile accident a year ago. Three of his children suffered by broken arms and one child had three fingers cut off.

ALL AMENDMENTS NEARLY DEFEATED BY OVERSIGHT

Discrepancies Discovered in Time to Make Thorough Investigation.

Sacramento.—The final report of the investigations of the Assembly and Senate constitutional amenpments have been completed by Secretary of State Jordan and mailed to Attorney-General Webb.

Although Jordan says he has found many discrepancies in the amendments, it is believed that all have been ordered on the October ballot, with the exception of No. 13, which, although certified to Jordan, did not pass the Legislature.

The report which Jordan submitted to Webb does not include the printing of the text of the amendments. The Attorney-General has ruled that the title is sufficient. This leaves but one point for Jordan to raise, and that is the conflict which he says exists between the Senate and Assembly journals.

The time for getting copies of the amendments into the hands of every elector is drawing near. About 1,000,000 copies will have to be printed and sent to the county clerks, who, in turn, must mail a copy to each voter.

Artificially Colored Tea Condemned.

San Francisco. — Sixty thousand pounds of Chinese tea, consigned to this port and valued at about $20,000, has been condemned here by local custom house inspectors. The Government claims the tea has been artificially colored and is therefore impure. This action, the first and most drastic of its kind, is one of the most important steps taken in the enforcement of the Government pure food laws and will in all probability send the price of tea soaring and the Japanese tea merchants will reap the benefit of the condemnation.

Accidental Shot Proves Fatal.

Ukiah.—William Ward, the brakeman of a logging train, who was killed Saturday morning by a rifle bullet, is believed to have been the victim of a youthful hunter. Jesse Davis, a 14-year-old San Francisco boy, was hunting near the railroad tracks Saturday morning and the police believe a bullet from his rifle killed the brakeman. Sheriff Byrnes and officials from Willits found the boy and he admitted having discharged his rifle near the railroad tracks while hunting.

Panther Attacks Mail Carrier.

Weaverville.—As Albert McDonald, mounted mail carrier between Junction City and Burnt Ranch, was riding along the trail a panther sprang at him from the brush as he was crossing a dark gulch. McDonald ducked and the panther missed him. The animal came so close to the mail carrier that its claws tore through his jumpers and shirt and scratched his flesh. The panther made only one attempt and disappeared in the gathering darkness.

Separate Residences For Students.

Berkeley.—Women students will not be allowed to take up residence in mixed boarding houses at the State University here this year, according to an announcement here. In an address to women of the freshman class Miss Lucy Sprague, dean of the women students, notified the entrants that women were expected to take up their residence in houses in which women students only reside. The same rule will be applicable to men.

Skunk Came Out Victor.

Los Angeles. — Thomas Dunnigan, wealthy society and clubman, and Martin Brown, policeman, are patronizing a Russian bath house following a "run-in" with a common skunk of the garden variety, which had invaded Dunnigan's lawn in an exclusive residence section. The trouble is due to the poor aim of the policeman, who fired two shots, both missing.

Route of Labor Parade Changed.

Los Angeles.—Plans of labor leaders to have John J. McNamara and his brother, James, witness, through the bars of their cells, a great Labor Day parade filing past the county jail received a check when Mayor Alexander blue-penciled Temple street from the proposed line of march.

Autos Controlled by Government.

Simla, British India.—The manufacture, sale, importation or possession of all kinds of air craft henceforth will be under control of the Government, the authorities having introduced legislation providing for a system of licenses of a costly character.

Froze to Death on Pike's Peak.

Colorado Springs, Colo.—W. A. Skinner and wife of Dallas, Texas, were frozen to death near the summit of Pike's Peak. Ther bodies, almost covered with snow, were found side by side by a boy walking down the peak.

S. P. Railroad Lays Off Several Thousand Employes

San Francisco.—Two thousand employes on the Pacific system of the Southern Pacific will be laid off this week. By the end of September 6000 employes will probably have been laid off in the maintenance, motive power, construction and operating departments of the Pacific system.

All seven lines of the Harriman system are included in the order to reduce forces issued from the office of Julius Kruttschnitt, vice-president and director of maintenance and operation on the Harriman system.

The Southern Pacific shops have begun operating on the eight-hour day, five-days-a-week basis. By the agreements which the Southern Pacific has with the various crafts it must, when pursuing a retrenchment policy, first reduce the working hours, then the working days before it can reduce the force.

Slack freight traffic conditions are given as the cause of the retrenchment. Short wheat and corn crops throughout the Pacific Northwest and the Middle West States have tied up an unusually heavy number of cars for this period of the year. Reports show 165,508 idle cars in July.

It was stated from the general offices of the Southern Pacific in the Flood building that freight trafic conditions are expected to improve materially in October, when the employes who have been laid off will be taken back in the order of their seniority.

At the present time, it was explained, the ratio between the gross revenues and the operating expenses is 64 per cent, which means that for each dollar taken in 64 cents is spent for labor. By reducing hours and forces this ratio will be decreased to about 60 per cent.

Poison Responsible For Death of Much Small Game

Newman.—The war on squirrels and other field rodents is, if numerous reports are credible, proving disastrous to doves, quail and also cottontail rabbits. Early in the season the hunters reported a scarcity of doves in erstwhile favorite shooting grounds, prior to the opening days, and subsequently many dead bodies of doves were found. Such reports came from Butte county; also from Salinas and San Benito counties.

Dead doves have been found by hundreds on the plains near Newman, down the San Joaquin valley, where the storm center of war of extermination against the squirrels is now located.

Around the squirrel holes the ground is bare for a yard or more; to these open spots the doves resort for a dust bath. Poisoned grain placed in and about the holes is picked up by the birds and death soon ensues. The deathrate of quails is said to be a serious setback in some districts. The resulting damage to this season's crop of birds is greater by far than the usual annual wildcat pickings of young and old birds from the nests.

As for the bunnies, what their first cousins, the squirrels, like is also palatable to the rabbits, and in this case equally fatal.

San Mateo county rabbit hunting in the vicinity of Purissima, Farrallon City, Lobitas, Pescadero and other points has improved during the past week. Many limits of 15 have been shot by hunters. After the harvest the sport should be much improved.

Moderately Sulphured Fruit Harmless Says Board

Washington. — Dr. Wiley will be turned down and the California fruit packers will win in the sulphur dioxide controversy, which is soon to be decided by the Remsen board.

Dr. Wiley tried to prevent the use of sulphur in the drying of fruits, while the California packers maintained that the use of sulphur in moderate quantity was not harmful. The matter has been under investigation two or three years in California and the practice of fruit packers in France and Germany also had been studied. The Remsen board will report that the use of sulphur dioxide in moderate quantities is not harmful.

It is probable that the same percentage will be fixed as that permitted to European packers. Upon receipt of the report of the Remsen board it is expected that the three cabinet officers charged with making rules under the pure food bill will issue a rule in accordance with the report and thus relieve the California packers from apprehension of the ruin of their business by Dr. Wiley.

Until the report is received and acted upon the packers are permitted to continue their present practice and there will be no hold-up of the present practice.

Men Who Will Choose Site For State Reformatory

Sacramento.—Judge C. M. McLaughlin of Sacramento, former Justice of the Third District Court of Appeals, Earl Walcott, Secretary of the Commonwealth Club of San Francisco, and B. P. Oliver, a real estate man of San Francisco, who is better known as the foreman of the "Oliver Grand Jury," were appointed by Governor Johnson as members of a commission which will assist in selecting a site for the proposed reformatory for first offenders.

The appointments are made under an act passed at the last Legislature, $150,000 being appropriated for the purpose of the site. The site, it is specified, must be selected with the view of affording opportunities for teaching first offenders everything pertaining to farming, and with such surroundings as will tend to transform the first offenders into useful and industrious citizens. These appointees, in conjunction with Governor Johnson and Lieutenant-Governor Wallace, will constitute the board that will make the final choice. The Lieutenant-Governor is at present in Europe and in the event any action is necessary before his return State Treasurer Roberts will act in his stead.

Americans' Diet More Simple Than Other Nations

Chicago.—Speakers at the session of the American Stewards' Association declared that Americans are more discriminating in their diet than people of any other nationality, G. Gowan, steward of the Union League Club of Chicago, said:

"America has stopped its heavy eating. A banquet menu is no longer measured with a tape. Light eating is the rule. The average man today consumes about one-half the food the man of similar activities did 20 years ago. The American cares less for rich sauces than he formerly did.

"The French are now taking their cooking lessons from America. The day of rich food is past. Simplicity and quality are the keynotes of the modern school in the selection and preparation of food."

Baby Check-Room Adjunct to Court.

Chicago.— A "baby check-room," where infants can be checked by mothers while they are in court, is to be established at the Maxwell police station in the heart of Chicago's Ghetto.

Socialists Defy Ordinance.

Aberdeen, Wash. — Socialists here have notified the City Council that they will not obey the recently enacted ordinance restricting street speakers to certain districts of the city.

CHILDLESS RICH GET BUSY ADOPTING HOMELESS BABES

Pasadena Millionaires Await Turns to Have Applications Filled.

Pasadena.—Childless millionaires in Pasadena want to adopt babies and the demand exceeds the supply. A month ago there were 19 infants in the baby home of the Humane society. All have found homes.

Mrs. Fordyce Grinnell, society leader and clubwoman, who is largely responsible for finding homes for many of the babies, said:

"We want more babies, heaps of them. We can't get enough in Pasadena and must seek elsewhere for them. Pasadena may have a low birth rate, but the people are mobbing the Humane Society for more babies. Before I went to Los Angeles the other day to bring back three babies I had shown a photograph of them previously to baby applicants and they were taken before they left Los Angeles.

"Childless millionaires have sent in their applications and must await their turn. Some of the waifs adopted by our millionaires are pretty well grown and are far better off than had they remained with their fathers and mothers."

Old Vets Struggle in Review.

Rochester, N. Y.—The fast fading ranks of the Grand Army of the Republic gathered here for its forty-fifth national encampment passed in review before President Taft. As the veterans endeavored to keep step to he music they presented a sight that stirred the hearts of the thousands of spectators to pity. Scores of the old soldiers could not stand the strain and dropped out before the parade reached the President's reviewing stand in Washington Square. The parade halted at frequent intervals to give the veterans opportunity to rest.

Improved Barley For State.

Chico.—After four years of experimenting at the Chico United States plant introduction garden with a variety of wheat known as chul, introduced from Turkestan, H. F. Blanchard, grain expert at the local garden, has succeeded in separating a pure seed from the mixture which had contaminated it, and in tests the new wheat has yielded from 15 to 20 bushels more per acre than the white Australian variety, which generally is grown in this vicinity.

U. C. is Not Yet Without Money.

Sacramento.—The State Board of Control caused the transfer of $277,546.23 from the general State fund to the University of California fund. This amount represents part of what the University will receive as its annual appropriation from the State, and the transfer is made so that the money may be available at once. This money represents a share of the State taxes that have just been paid into the State treasury by the corporations.

Japan Will Return Captured Vessel.

Tokio.—An official statement has been issued concerning the return to Russia of the former hospital ship Angara, which was sunk by her crew at Port Arthur in November, 1904, to prevent the vessel falling into the hands of the Japanese. The ship was re-floated by the Japanese, converted into an auxiliary cruiser and added to the navy of Japan. She was then renamed the Anegawa and used as a training ship.

Pays After Twenty Years.

Marysville.—Al Peel, proprietor of a hotel here, is wondering if the world is getting better. A stranger came in and slipping $22 into Peel's and declared he wanted to pay a bill he had owed for 20 years. The stranger declared he stayed at the hotel when Peel's father ran it and left without paying his board bill. The $22 was for the hotel bill and interest.

Bandits Rob Mine.

El Paso, Texas.—The Chispas mines, near Arizoe, Sonora, have been raided by bandits, who robbed stores and offices of money and provisions, according to information received here from Cananea. Rurales are on the trail of the robbers, who are headed toward the Arizona border.

Japanese Cabinet May Resign.

Tokio.—Owing to national dissatisfaction over Marquis Katsura's failure to carry out proposed increases in the army and navy, the Cabinet, including Premier Katsura and most of the vice-ministers, will resign, according to an extra issued by the Tokio Asahi here.

Asks Damages From Railroad.

Redding.—Mrs. Alice Vallier Howell filed suit for $50,000 damages against the Southern Pacific for the death of her son, George Vallier, who was killed on top of a car north of here a year ago.

WEEK'S DOINGS OF THE WORLD BRIEFLY TOLD

News From All Points of the Compass by Wire and by Wireless

Important Events From Oyster Bay to Mombasa Presented in Pithy Paragraphs.

Rome.—Results of the census taken in June thus far made known show the following approximate populations: Naples, 750,000; Milan, 615,000; Turin, 429,000; Genoa, 240,00.

Tamworth, N. H.—In saving the farmhouse of Mrs. Grover Cleveland from destruction by fire, Will O. Cook, the caretaker, 50 years old, received burns which may result in his death.

Ashbury Park, N. J.—Five minutes after she received from her mother warning of hatpin danger, Miss Mary Mitchell's eye was pierced by a hatpin worn by a woman who passed on the street.

Montclair, N. J.—Workmen are repiacing a $150 plate glass window in the front of a store here. It was broken by a stone dashed from the roadway by the wheel of a passing automobile.

Laramie, Wyo.—E. B. Adair of Lost Spring, near Douglas, has unearthed a human skull imbedded in stone and believed by archaeologists to have antidated the biblical flood. The skull is well preserved.

Memphis, Tenn. — Carrying down Fireman Williams and two negroes to their death, the river packet Harry Lee sank in the Mississippi near Brandy Wine, 45 miles southwest of Memphis. Fifteen passengers were rescued with difficulty.

Leavenworth, Kan.—Sergeant Ferdinand Batenfeld, Company D., United States Infantry, stationed at Fort Leavenworth, shot himself through the head with an army rifle. He is said to have been despondent because of separation from his sweetheart.

Washington.—The report of the House Committee, which has been investigating the alleged conspiracy in the Department of Agriculture to oust Dr. H. W. Wiley from his position as head of the Bureau of Chemistry, will not be announced until next December.

Rome — Torrential rains, accompanied by high winds, have fallen for 24 hours in Lombardy, devastating that rich province. Many houses have been blown down and some fatalities have resulted. Bridges have been carried away and enormous damage has been done to vineyards.

Brinceton, N. J.—Chinese students from colleges in all parts of the United States are here to attend the annual conference of the Chinese students' Alliance. They carry with them their college penants and make a noise like American students whenever they come together on the streets.

Cheyenne, Wyo.—A roundup of 25,000 or 30,000 elk in the Jackson Hole country has begun. Under the leadership of Edward Beck and Ray Hester, cowboys and other persons from Washington and Central Idaho points are here helping to drive the elk to other sections, where there is better range.

Columbus, O.—After a conference with Attorney-General Hogan and County Prosecutor Turner, Colonel Rodney Diegle has announced that he would make a complete confession of his part in the recently exposed corruption in the Ohio Legislature. Diegle will probably escape a penitentiary sentence.

Paris.—The French Government will establish in the United States a permanent mission for the study of industrial, technical and commercial methods. Leclerc de Pulligny, chief engineer of bridges and roads in France, has been named as the head of the mission, which will leave for New York September 1st.

Cleveland, O.—In response to complaints from people residing near the city dumping grounds that crickets living there in untold number are invading their homes, destroying carpets and curtains, the city fire department spread four barrels of oil over the dumping ground and set a fire. Millions of crickets are supposed to have perished.

Lexington, Ky.—The Burley tobacco crop of Kentucky, which was last year estimated to be 300,000,000 pounds, will not amount to more than 50,000,000 pounds this year, it is believed. The great shortage is due to the worst drought in years; to hailstorms, and to failure of hundreds of farmers to plant tobacco this year on account of the large amount of the pooled crop of other years still unsold.

INFLAM MATION AND PAIN

Cured by Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I was troubled for a long time with inflammation, pains in my side, sick headaches and nervousness. I had taken so many medicines that I was discouraged and thought I would never get well. A friend told me of Lydia E. Pinkham's Vegetable Compound and it restored me to health. I have no more pain, my nerves are stronger and I can do my own work. Lydia E. Pinkham's Vegetable Compound cured me after everything else had failed, and I recommend it to other suffering women." —MRS. WM. SEALS 605 W. Howard St., Creston, Iowa.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

SCIENTIFICALLY REARED BABIES REALLY THRIVE

New Fangled Ideas That Do Not Meet the Approval of Old School.

To tell you the whole bitter truth, the baby does not mind being made automatic, says Ellis Parker Butler in an article in "Success Magazine." The baby that is unrocked and uncradled and uncuddled, and fed patent ready-made foods, and sterilized, and scientifically reared, really thrives! He is put out of doors when the weather is two notches below zero, and his hands get warm! He is plumped into bed without a pat or a lullaby, and he drops off to sleep like a little pink log! He awakens at uncanny hours of the night, and instead of howling, he winks a couple of times and goes to sleep again! He begins to teethe, and when he wails, instead of being fed and filled with soothing syrups, he has his food supply cut down to a minimum, and he teethes without fevers or stomach riots! He is bathed as a crocodile would be bathed, and he loves his bath!

EVERY WOMAN WILL BE INTERESTED.

There has recently been discovered an aromatic pleasant herb cure for woman's ills, called Mother Gray's AUSTRALIAN LEAF. It is the only certain regulator. Cures female Weaknesses and Backache Kidney, Bladder and Urinary troubles. At all Druggists or by mail 50 cents. Sample FREE. Address the Mother Gray Co., Le Roy, N. Y.

She Agreed.

"Your husband says he leads a dog's life," said one woman.

"Yes. It's very similar," answered the other. "He comes in with muddy feet, makes himself comfortable by the fire and waits to be fed."—Everybody's Magazine.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Sugar-coated tiny granules.

He Didn't Get a Chance.

Defeated Candidate—You encouraged me to run for office. You know you did. You said you thought I wouldn't make a bad alderman.

Trusty Henchman—Well, the returns seem to show that I was right.—Boston Transcript.

A merchant advertises because he wants your trade. He will make it worth your while to patronize him.

In Chicago.

The Chicago woman was on the witness stand. "Are you married or unmarried?" thundered the counsel for the defense.

"Unmarried four times," replied the witness, unblushingly.—Philadelphia Record.

SHOW CARD writers earn $1 an hour. S. F. Show Card School. Day and evening classes. 915 Van Ness Ave., S. F.

Philanthropy.

There were once two boys, James and John. James was impetuous.

"I will refrain from taking what doesn't belong to me first, last and all the time," he declared, and so lived and died in obscurity.

But John was vastly more crafty. "I will take whatever isn't nailed down, and then in the fullness of my years I will give it back," quoth he, and became a philanthopist whose name filled the earth.—Puck.

Bad for the Digestion.

A country merchant having procured a new clerk, woke him up the next morning after he was hired at a most unseasonably early hour, by calling out that the family were sitting down at the table.

"Thank you," said the boy, as he turned himself for a new nap—"thank you, but I never eat anything during the night."

Poor Father.

Marion, who had been taught to report her misdeeds promptly, came to her mother one day sobbing penitently. "Mother—I—broke a brick in the fireplace." "Well, that isn't very hard to remedy. But how on earth did you do it, child?" "I pounded it with father's watch."—Pittsburg Press.

THE KEYSTONE TO HEALTH IS HOSTETTER'S STOMACH BITTERS

TO STRENGTHEN INVIGORATE TONE AND REBUILD THE ENTIRE SYSTEM

you need the Bitters at once. Try it. It never dissappoints.

WINS HEARTS OF LOCAL PEOPLE

Munyon's "New Health" Ideas Achieving Marked Success.

The extraordinary success attained at Prof. Munyon's laboratories, 53d and Jefferson Sts., Philadelphia, by the practice of the "new health" theories of Prof. James M. Munyon in the treatment of disease has become a matter of wide comment. That Munyon has won the heart of the people is shown by the large number of people who call on him in a continuous stream at his laboratories. Many of those who call are returning to tell of great benefit received from the Munyon's new treatment.

Hardly an hour can be passed in the drug store, but some one returns to tell of a remarkable case cured or helped by this Munyon treatment. One woman who came in said:

"I want to see Dr Munyon to tell him what his remedies have done for me all my life. When I was a little girl my mother used to give me his remedies every time I got sick, and they always brought me through. We had nothing else in the house.

"Now I am married and have my own family of dear little children we still have nothing but Munyon's remedies in the house. We are the healthiest and happiest family in the city, and neither myself nor any of my children have ever in our lives taken any other medicines but Munyon's, that is, except once. My little girl had a terrible attack of indigestion, and I called a doctor. He gave her some medicine, but it didn't help her. Then I ran to my medicine chest and got some of Munyon's indigestion remedy, and within an hour she was resting easy. It was the same way with my grandmother. She had the most severe case of rheumatism I ever saw. Doctors treated her, and we did everything we could think of, but she kept getting worse all the time. I begged her to see Dr. Munyon, but she said she had no faith in these 'new fangled medicines.'

"Finally, however, she consented to come in, and purchased the full uric acid treatment. It worked just as all of Dr. Munyon's remedies have worked—perfectly. Within a week her rheumatism had entirely disappeared, and now she has not a trace of it. You see what I think of Dr. Munyon. I can never say enough for him."

Letters to Prof. Munyon, personal, Munyon's Laboratories, 53d and Jefferson Sts., Philadelphia, will be answered promptly in a strictly confidential manner. Return letters will be sent in plain envelopes. Prof. Munyon and his corps of expert physicians give advice absolutely free, by mail, or if you call on them they will give you their best attention. Send for an examination blank, fill it out, and they will diagnose your case and tell you just what is the matter. You are at liberty to take their advice or not, they make absolutely no charge.

Risks.

Old Lady—I feel a presentiment that something is going to happen on this journey. Do you think there is any danger?

Statistic Fiend—Every passenger on this train takes one chance in 1,903,421 of being killed.

Old Lady—Goodness! If they told me that when I bought my ticket I wouldn't have come by this line."—Tit-Bits.

Stung.

"How in the world did you ever come to marry that horrid man in the first place?"

"It was all my chum's fault."

"Did she tell you that he was rich?"

"No, she pretended that she wanted him herself."—Houston Post.

The Heretic.

Sunday School Teacher—Why, Willie, I'm surprised! What part of the Bible is it that you don't believe in?

Willie—That part in the middle where they keep the family ages.—Puck.

It's a good system, when we think we're in pretty bad, to take a slant around and observe how much worse the other fellow got it where Hiawatha wore the elk's tooth.

A company has been organized in Paris to build an underground freight railway to connect with all the surface road terminals.

Most of us are calculating on developing "a lowly and a contrite heart" when we get to be about 107 years of age.

They've harnessed the falls of Niagara, but they've never succeeded in chaining the force of habit.

Don't forget the man who helps you cross a shaky bridge.

THE ORIGIN OF PETROLEUM A MATTER OF SPECULATION

Occurs In Many Localities Under Very Different Conditions.

Recent studies of the great problem make it appear that petroleum may have both organic and inorganic origin. While admitting the former cause, George F. Becker of the United States Geological Survey finds that some oil has been produced away from any life remains, and he thinks it quite probable that the mass of the earth may contain natural hydrocarbons. The compass gives evidence that oil may result from iron carbides.

Petroleum occurs in many localities where magnetic disturbances indicate the presence of metal, such as the better iron ores, and this association is particularly marked in the Appalachian oil field and in California.

CLOSING OUT

500,000 rolls of fine Wall Paper at 3 cents per roll and up. Paint $1 per gallon. Write for free samples of wall paper and color card of paints. J. L. Ash, 39 Sixth street, San Francisco. Mention this paper.

Answered.

"You, there, in the overalls," shouted the cross-examining lawyer, "how much are you paid for telling untruths?"

"Less than you are," retorted the witness, "or you'd be in overalls, too."—Housekeeper.

The next time you feel that swallowing sensation gargle Hamlins Wizard Oil immediately with three parts water. It will save you days and perhaps weeks of misery from sore throat.

Her Giddiness.

"I suppose Catherine Brown has her hair bleached now," said the returning traveler.

"Yes," replied the stay-at-home, "but how did you know? You've been away nearly a year."

"Yes, but I thought that would be the next step; she had just begun to spell her name 'Kathryn' when I went away."—Catholic Standard and Times.

Would Hang Him.

Juggins—Who was it that said if he could make the songs of the people he wouldn't care who made the laws?

Muggins—Don't know. But if he's the chap who's making the songs of the people nowadays I'd just like to have the making of the laws a little while. That's all!—Milwaukee Sentinel.

Age Lends Attachment.

"Patty," said grandma, "I think it about time you stopped playing with boys. Little girls ought not to care to play with boys, when they're as large as you."

"Oh, that's all right, grandma. Why, the bigger we get, the better we like 'em."—Milwaukee Sentinel.

Necessary Preliminary.

"Can't you assume a little more pleasure expression of countenance?" asked the photographer.

"Y-yes, sir," hesitatingly answered the sitter. "Wait a minute and I'll taffe off these new shoes."—Chicago Tribune.

The Sequel.

"Papa, did Mr. Softleigh call on you today?"

"Yes, dear."

"Well, what followed?"

"Two doctors and an ambulance."—Judge.

Cash Transference.

"How are you getting along in the law business, old man?"

"I have one client."

"Is he rich?"

"He was."—Boston Transcript.

Remorse sometimes is a Keen Sense of Mortification over being Snagged with the Goods!

The fellow who is satisfied with the leavings generally gets 'em!

A Hair Dressing

If you wish a high-class hair dressing, we are sure Ayer's Hair Vigor, new improved formula, will greatly please you. It keeps the hair soft and smooth, makes it look rich and luxuriant, prevents splitting at the ends. And it keeps the scalp free from dandruff.

Does not change the color of the hair.

Ayer's

Formula with each bottle. Show it to your doctor. Ask him about it, then do as he says

At the same time the new Ayer's Hair Vigor is a strong hair tonic, promoting the growth of the hair, keeping all the tissues of the hair and scalp in a healthy condition.* The hair stops falling, dandruff disappears. A splendid dressing.

—Made by the J. C. Ayer Co., Lowell, Mass.—

The Human Heart

The heart is a wonderful double pump, through the action of which the blood stream is kept sweeping round and round through the body at the rate of seven miles an hour. "Remember this, that our bodies will not stand the strain of over-work without good, pure blood any more than the engine can run smoothly without oil." After many years of study in the active practice of medicine, Dr. R. V. Pierce found that when the stomach was out of order, the blood impure and there were symptoms of general breakdown, a tonic made of the glyceric extract of certain roots was the best corrective. This he called

Dr. Pierce's Golden Medical Discovery

Being made without alcohol, this "Medical Discovery" helps the stomach to assimilate the food, thereby curing dyspepsia. It is especially adapted to diseases attended with excessive tissue waste, notably in convalescence from various fevers, for thin-blooded people and those who are always "catching cold."

Dr. Pierce's Common Sense Medical Adviser is sent on receipt of 31 one-cent stamps for the French cloth-bound book of 1008 pages. Address Dr. R. V. Pierce, No. 663 Main Street, Buffalo, N. Y.

Proved It Himself.

An electric wire had fallen under its heavy weight of snow. The linemen found a crowd around the grounded copper, and an inquisitive Irishman lifting one end from the ground.

"Man alive! Don't you know what a risk you're taking? That might be a live wire!" he ejaculated.

"Sure 'n' Oi thought of that meself, an' Oi filt of the wire good before Oi picked it up at all."—Everybody's Magazine.

PLUMBING MATERIAL—CUT PRICES.

Get our prices before you buy, it means a saving. Complete line—Fixtures also Pipe & Fittings.—Boilers $4.25. Sinks $1.50, Bathtubs $7.00, Lavatories $2.50. C. P. Plumbing Material Co., Inc. 322 McAllister St., San Francisco.

Easy Money.

First Starving Author—What would you do, old man, if you could get five cents a word for your stuff?

Second Starving Author—I'd write a dictionary.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

In Due Time.

Child—Mother, where do autoists go when they go on a "joy ride?"

Mother—Most of them go to the hospital, my dear.

Display Adv., (2 or more inches) 50c an inch per month. 1 inch 75c per month.
Notices of Entertainments where a charge is made, Cards of Thanks, etc., 5c per line.

DOES "ex-Uncle-Joe" Cannon even Champ at the bit?

A GEORGIA Senator proposes to tax bachelors $50 a year. As if the poor fellows hadn't bad luck already.

MISSOURI now has a State song, and we suppose it begins with "Champ, Champ, the boys are boosting."

MR. BRYAN may be a tetotaler, but there's no man in the world who knows better what that morning after-feeling is.

THERE are moments of doubt as to whether the distinguished Mormon, Mr. Smith, is conducting a religion or a business.

A DANIEL, a vertible Daniel come to judgement. A New York court has decided that force may be used in ejecting a bill collector.

WHEN President Taft comes out West after having vetoed the tariff and recall bills he certainly will be kept busy doing some explaining.

CHICAGO has been advised by a wise visiting Frenchman to house its workers in cottages instead of in tenements, and the advice is very good.

IT has been decided by an Omaha debating society that a horse is more desirable than an automobile. Nebraska has more oats than gasoline to sell.

A HALF spoonful of Boston ice-cream has been found to contain 55,000,000 bacteria. Which may account for some of the peculiarities of Boston people.

WE have heard it stated that the automobile dealers of San Jose hold mortgages on 800 pieces of property in this county. We propose to walk yet awhile.

THE man who gets mad at what the newspaper says about him should return thanks three times a day for what the newspapers knew about him and suppressed.

OKLAHOMA will this year produce 12,000,000 bales of cotton, valued at $75,000,000. Pretty good for a country that up to twenty-two years ago never produced anything but trouble.

LET us work and stimulate every legitimate enterprise by giving it all the friendly encouragement we can, and unite our industry, intelligence and capital in a common cause for the good of our town.

EVERY school boy knows that a kite will not fly unless there is a string tying it down. It is just so in life. The man who is tied down by half a dozen blooming responsibilities and their mother will make a higher, stronger fight than the bachelor, who having nothing to keep him steady, is always floundering in the mud. If you want to ascend in the world, tie yourself to somebody.

THE insane desire to be handsome has made more than one of our otherwise sensible girls do some downright crazy thing. The powder and rouge smeared on the freckled cheeks is too apparent a deception for the prudent young man not to see and with which he is disgusted. He hates the taste. A freckled face with common-sense is handsomer than the best powder can make a face.

THERE are very few "House for Rent" signs to be seen in our town. That is proof of growth and prosperity, but also an indication that more homes ought to be provided for the people who would move here, if houses could be rented. A number of cozy and attractive cottages that can be rented at a reasonable figure is what we need.

WHEN you pull down the town in which is your home, you are pulling down yourself, and when you build up you are building up yourself and your neighbor. Try and banish from your mind the mistaken idea that all good things are away off in some other locality. Give your town all the praise it can legitimately bear. It certainly will do you no harm and will cost you nothing; and above all patronize your home institutions—including the local paper.

DES MOINES has a municipally owned city market for fruits and vegetables, where farmer and townsman may meet and make their exchange without a middleman "in between them" to rake off the price of an automobile. As the green grocers brought it on themselves by forming a trust and adding 10 percent above what the traffic would reasonable bear, it is little sympathy they can expect in their trouble. Other cities are preparing to follow Iowa's lead in this kind of patriotism.

THERE is a habit and a delusion among a large number of ou people to go to San Jose to shop, believing that they can purchase cheaper. We think these good people may be buncoed by their own thought. Please reckon your carfare and time, if the latter is worth anything. If our town merchants try to "soak" you or have not what you want, of course, you are justified to go elsewhere. But first find out by getting prices and see what your home merchants have. You will notice by reading the ads in this paper that some of our dealers are constantly adding new lines of goods.

THE home that possesses a cheerful wife and mother is not only a veritable haven of rest, but the safe harbor whose beacon light will guide her bread winners safely past all rocks and shoals with unfailing certainty. The woman whose cheerful spirit can take that "brave attitude toward life" that enables her to bear courageously the inevitable burdens of her life's environment; that strengthens her determination not to fret or worry those who, for her sake, are fighting the hard battles in the world, has reached the altitude that proclaims her price above rubies; and her influence and example are not felt only within the limits of the four walls she has made the unassailable bulwark of state and society, a happy home, but reach to those she knows not of.

Big Apple Show

Watsonville, August 11, 1911.—The Directors of the Watsonville "Apple Annual" desire their position with respect to the second yearly exhibition of fruit on October 9—14th, definitely known. While Pajaro Valley is the great apple growing center of California now, by encouragement and exploitation other sections of the state can grow apples of as good quality. To the end that people may be attracted to this state to engage in this industry, this California Apple Show is being held, and the Directors invite every apple growing district in California to compete.

Last year, counties outside of Santa Cruz did so well, it is believed this year a great impetus can be given the industry by outside exhibits.

It must be borne in mind this Show is attended by apple men, apple buyers from all over the country—Chicago, Philadelphia, New York, Boston, London, Liverpool, Glasgow, Manchester, Bremen, Berlin and other cities of like character, all had representatives here last year and the local markets have felt a stimulus as a result. Orders for this year's crop are already being placed, in fact, most of them have been placed, and there is a demand for more apples. There is no question but the Apple Annual of last year assisted this section many hundreds and thousands of dollars.

What Pajaro Valley can do, other sections can do also. Hence, the desire for sharp competition at the hands of other communities. Competition stimulates growing, selection, packing and marketing. While this section enjoys a remarkable trade in this sort of fruit, it realizes it cannot supply the demand of itself, hence, urges other parts of the state to participate in the benefits.

Order your Rubber Stamps, Stencils, Seals, Numbering Machines, etc., at the Press office. A big catalog of samples to select from.

Clumsy Breton Women.

To the casual observer the Bretonne is not attractive or even supremely interesting. As a femme de chambre she is clumsy, slovenly and rough of speech, lacking the graces and neatness of her Parisian sister. She shuffles about in felt slippers, her voluminous black skirts catch in everything, and if she waits at the table d'hote her method of handling cutlery is strongly calculated to sever one's jugular vein. She has no regularity in her work, and at the hour that she ought to be making beds she is probably sitting on the public staircase nursing her baby. She is generally married and, conversely, often ten years younger than you take her to be. To English eyes she is rarely beautiful. Her hair is trained tightly under her cap, her cheeks have seldom any delicacy of tint, and her figure and motions are ungainly and awkward.—Wide World Magazine.

Wanted a Sleeper.

A certain physician sat in a box at the theater the other night. It happened that he was the first man to take his seat in that particular box. The next man ushered in had been hitting just a few of the more elevated points in the highway prior to coming to the theater.

"Am I intruding?" he inquired ever so politely of the doctor. "Have you this section engaged all for yourself?"

"No. I haven't got it engaged all for myself. Sit down," replied the doctor brusquely, for he didn't want to encourage the stranger to carry on any extended conversation.

"All right, then," replied the stranger. "If you haven't got the whole section I'll tell the porter to go ahead and let down the upper berth."—Washington Star.

"Yale" Fruit Press
A Handy Thing for the Home

Now that summer is come and the fruit season is upon us, every woman who does her own preserving needs a fruit press as a time-saver. She will find it simply invaluable for making all sorts of jams, jellies, grape juice and cider, and she will have much better luck with her sweets than by using the old method of straining through a bag and other old-time methods. They come in two, four and eight-quart sizes, to suit the needs of large or small families, and can be clamped onto any table. They are almost indestructible as the presses are made of plaited steel and iron. The thought of having fresh cider on the table every day in the fall should delight every household, particularly if it can be done with such a small amount of labor. Fruit jellies made with this press are absolutely clear and every drop of juice is extracted from the fruit, thus proving how economical such a kitchen utility really is. With such a help as this no housekeeper can dread preserving time.
